

May 2020

WDBE 2020 - World Summit on Digital Built Environment

Redefining sustainability for urban future

September 29-30, 2020

Join our next pre-event on 19th May: WWF Life EconomisE KIRA-challenge

On 19th May, the WWF Life EconomisE KIRA-challenge sets a global online stage for companies to pitch their solutions for low-carbon and resilient building stock for institutional investors and real estate owners.

The high-profile jury of the competition includes big institutional investors Ilmarinen and Varma as well as real estate owner, developer and manager Citycon and Urbantech, an accelerator program for the development of sustainable cities.

Winners, selected by the jury, will get the opportunity to share their expertise alongside WWF in their showcase at the World Summit on Digital Built Environment 2020 Showroom.

Register to WDBE 2020

World Summit on Digital Built Environment, WDBE 2020, brings together professionals from the public, and private sector globally. Anyone who shares the enthusiasm to learn, share and co-create our urban future is warmly invited. We welcome brave visionaries, and curious minds to showcase and experience the most sustainable, innovative and future oriented ideas.
